 2. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and MCA Circulars dated April 08, 2020, April 13, 2020 and May 05, 2020 the Company is providing facility of remote e-voting to its Members in respect of the business to be transacted at the AGM/EGM. For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorized e-Voting's agency. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the EGM/AGM will be provided by CDSL.
 3. The Members can join the EGM/AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the EGM/AGM through VC/OAVM will be made available to atleast 1000 members on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the EGM/AGM without restriction on account of first come first served basis.
 4. The attendance of the Members attending the AGM/EGM through VC/OAVM will be counted for the purpose of ascertaining the quorum under Section 103 of the Companies Act, 2013.

Annual Report 2020-21

5. Pursuant to MCA Circular No. 14/2020 dated April 08, 2020, , the facility to appoint proxy to attend and cast vote for the members is not available for this AGM/EGM. However, in pursuance of Section 112 and Section 113 of the Companies Act, 2013, representatives of the members such as the President of India or the Governor of a State or body corporate can attend the AGM/EGM through VC/OAVM and cast their votes through e-voting.
 6. In line with the Ministry of Corporate Affairs (MCA) Circular No. 17/2020 dated April 13, 2020, the Notice calling the AGM/EGM has been uploaded on the website of the Company at www.mro-tek.com . The Notice can also be accessed from the websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively. The AGM/EGM Notice is also disseminated on the website of CDSL (agency for providing the Remote e-Voting facility and e-voting system during the AGM/EGM) i.e. www.evotingindia.com.
 7. The AGM/EGM has been convened through VC/OAVM in compliance with applicable provisions of the Companies Act, 2013 read with MCA Circular No. 14/2020 dated April 8, 2020 and MCA Circular No. 17/2020 dated April 13, 2020 and MCA Circular No. 20/2020 dated May 05, 2020.
 8. In continuation of this Ministry's **General Circular No. 20/2020**, dated 05th May, 2020 and after due examination, it has been decided to allow companies whose AGMs were due to be held in the year 2020, or become due in the year 2021, to conduct their AGMs on or before 31.12.2021, in accordance with the requirements provided in paragraphs 3 and 4 of the General Circular No. 20/2020 as per MCA circular no. 02/2021 dated January, 13, 2021.
- physical form or in dematerialized form, as on the cut-off date (record date) of 23rd September, 2021 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
 - (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.
- Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.
- In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.
- (iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

THE INTRUCTIONS OF SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS ARE AS UNDER:

SEGMENT : ELECTRONIC MANUFACTURING SERVICES (EMS)

Despite certain production disruptions due to current situation, this Business Unit achieved reasonable growth during the intervening period since the last MDR. The EMS focus of your Company continues to be on Aerospace & Defence (A&D) and Medical Sectors. The existing orders with current customers is being executed smoothly as per the planning schedules and are in various stages of deliveries. Several prototype orders were carried out in the focus sectors and the mass scale production for some of these new customers is expected to fructify in FY 2021-22. The current pandemic situation has disrupted the component supplies resulting in large and unpredictable procurement lead times, higher freight costs and overall higher production costs. The impact has affected production and delivery timelines to end customers. Also certain manufacturing orders like Cipla inhalers which were planned for mass scale in FY 2020-21 was deferred to FY 2021-22.

In line with the Manufacturing focus, the Manufacturing Unit attained AS9100 Rev D certification for Aerospace & Defence Manufacturing. This certification is an audit pre-requisite for most A&D equipment manufacturers and is expected to provide a boost to the company prospective of adding more customers in this Sector. The Manufacturing revenues in Medical Sector showed sustenance and relative growth.

Annual Report 2020-21

The focused business segments are as follows:

Industry segment	Customers
Aerospace & Defense	Alpha Design/Elbit, LnTDefence, AutoTec (Adani Defense), BEL
Medical Electronics	Terumo Corp, SkanRay/India, Cipla, Sperogenx
Industrial Electronics, Automotive and IOT	Mass trans, Sensel Electronics, Grey Orange, Hi tech Robotics

RISKS AND CONCERNS

The Company has consolidated its business focus into specific dedicated opportunities – a) Manufacturing; b) Products for Telecom and Railways; c) Turnkey Projects/System Integration and d) New technologies. These will continue to be the four pillars of the company for the next few years.

The updated SWOT Analysis of the Company is as follows:

STRENGTHS	<ol style="list-style-type: none"> 1. Trusted brand name 2. High quality engineering skills 3. Major Tier-1 customer confidence 4. Proven Manufacturing Capabilities for Niche sectors like Medical and Aerospace & Defence 	WEAKNESSES	<ol style="list-style-type: none"> 1. Product portfolio requires more strengthening and diversification 2. Ability to scale up quickly 3. High skill manpower bench is limited 4. High Cost of Capital
OPPORTUNITIES	<ol style="list-style-type: none"> 1. Favorable trends in Government policies 2. Make in India initiatives 3. Medical and Aerospace & Defence Manufacturing 4. System Integration 	THREATS	<ol style="list-style-type: none"> 1. Liquidity crisis with most customers 2. Dependence on government customers 3. Regular disruption of business due to COVID -19

OPERATIONAL PERFORMANCE

The Overall Business in all the BUs experienced disruption and Challenges due to the Pandemic. Products Business was affected due to extended lead time, Component Shortages, Less customer accessibility, Railways demand shrinkage in Q1 whereby the order execution saw an unpredictability in Q1 and Q2. However, your company ensured that the deficit seen in these quarters were adequately made up in the remaining Quarters. Also seeing the demand in a data consumption driven market, your company introduced a new line of GPON Products. This

move provided an additional boost to the sales revenue, which mitigated the slowdown due to the pandemic. **Despite all the challenges, your company ensured steady sales in the last two Quarters and ensured an encouraging 10% growth over the last FY in the Products BU.**

The EMS BU has also delivered a 10% growth over the last FY. However, the adverse impact of the pandemic on this BU was significant. Component Sourcing was severely affected with shortages, long lead times, cost escalation and high freight costs. All this affected On time Production and deliveries. Adding new customers

MRO-TEK REALTY LIMITED
(Formerly Known as MRO-TEK LIMITED)

also was the focus and long term engagement agreements were signed with companies like Graylinx (Lighting IOT Products for HoneyWell) and Sperogenx (Medical Devices) which is expected to scale up in the upcoming FY. The EMS order position at the end of year was Rs. 8 Crores and expected to be executed in the current year 2021-22. The EMS business is capital intensive and the thrust of the company going forward is to ensure frugality and enhancing efficiency to manage leaner input costs while maximizing the bottom line.

Overall the successful execution and delivery of orders with yield rates that exceed industry standards have ensured the necessary capability build up and proven our capability to our customers. This has provided significant traction to the EMS business and the Company has earned the confidence of customers and is being seen as a strong emerging Player in this Market.

On the Solutions front, your company has ensured successful Operations and Maintenance of current projects with BSNL/WCL, APEPDCL and HAL. The stipulated SLAs are being achieved and progressively improved. The company won one mid-size project in FY 2020-21 worth Rs. 13.28 Cr which will be executed in the upcoming FY. However, new business saw a shortfall. Due to the pandemic opportunities got adversely affected and further the company had gone through liquidity crisis. While the company participated in a few large scale tenders we narrowly missed out on Project wherein we ended up as the L2 bidder by a small margin. Going forward, your company sees high potential for revenue scale up in the Solutions and SI Vertical. Strong capability on System Integration and project Management front has now been established and the company has the launch pad and proven experience to compete in large scale SI Projects.

MATERIAL DEVELOPMENTS IN INDUSTRIAL RELATIONS FRONT

During the financial year under review, your management had recruited new employees. The Management is also focusing on the Electronic/ Contract Manufacturing Services (EMS/CMS) which required significant workforce. Your Company had employed and is planning to employ good number of skilled /unskilled labour in near future. This will lead to generate an employment opportunities within the industry. Your Company is focusing on Good Governance

Policy. The Management was able to have cordial relationship with employees at all levels and there was no industrial dispute case observed during the financial year under review.

Your company has taken care of employees and ensure healthy environment during the pandemic situation by implementing safety protocols like Covid Appropriate Behavior (CAB) in the factory premises, by allowing staffs to carryout work from

Annual Report 2020-21

home during Covid-19 1st & 2nd Wave. Your company CMD has organized free Vaccination Drive during June '21 for employees & family

members, 40+ volunteers have administered vaccination in a single day. So far 90 % of your company staffs administered vaccination.

IMPACT OF COVID-19 PANDEMIC ON THE BUSINESS OPERATION OF THE COMPANY

COVID-19 has already had a significant impact on the global financial markets, including India and it may have accounting and reporting implications for the Company.

Due to lockdown our product/contract manufacturing services will have major impact. Major orders having significant value could not be executed due to the Covid-19 impact. The factory was on complete lockdown for the period of 2 Months (Approx.).

Company's hope at this point of time there is no major impact of COVID-19 on our operations in the long run. However, probability of higher defaults in payment from customers or lower market demand of products cannot be ruled out. The company hopes that current diversification into EMS is expected to fetch good revenue from Medical, Aerospace and defence which may mitigate the future negative impact of COVID-19.

SECRETARIAL AUDIT REPORT
FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2021

*[Pursuant to Section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies
(Appointment and Remuneration Personnel) Rules, 2014]*

To
The Members
MRO-TEK REALTY LIMITED
(Formerly known as MRO-TEK LIMITED)
Bangalore

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by MRO-TEK REALTY LIMITED (CIN: L28112KA1984PLC005873) (hereinafter called 'the Company'). The Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on March 31, 2021 complied with the statutory provisions listed hereunder and also that the Company has proper Board processes and compliance mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by MRO-TEK REALTY LIMITED for the financial year ended on 31.03.2021 according to the provisions of:

- (i) The Companies Act, 2013 (the Act) and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-
 - (a) Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015;
 - (b) Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
 - (c) Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;

Annual Report 2020-21

- (d) Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018;
 - (e) Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014;
 - (f) Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008;
 - (g) Securities and Exchange Board of India (Issue and Listing of Non-Convertible and Redeemable Preference Shares) Regulations, 2013;
 - (h) Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - (i) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client;
 - (j) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009;
 - (k) Circulars/Guidelines issued thereunder;
- (vi) The Industry specific laws applicable to the Company are as follows:
- Housing Board Act, 1965
 - Transfer of Property Act, 1882
 - Building and Other Construction Workers' (Regulation of Employment and Conditions of Services) Act, 1996
- (vii) The other general laws as may be applicable to the Company including the following:
- The Factories Act & Rules
 - The ESI Act & General Regulations
 - The Employees Provident Funds & Miscellaneous Provisions Act
 - The Minimum Wages Act & Rules
 - The Payment of Wages Act & Rules
 - The Payment of Gratuity Act & Rules
 - The Payment of Bonus Act & Rules
 - The Maternity Benefit Act.
 - The Equal Remuneration Act
 - The Employment Exchanges (CNV) Act & Rules
 - The Karnataka Labour Welfare Fund Act & Rules
 - Industrial Employment Standing Orders Act
 - The Karnataka (National & Festival) Holidays Act & Rules
- (2) Environment Related Acts & Rules:**
- The Environment Protection Act, 1986
 - The Water (Prevention & Control of Pollution) Act, 1974
 - The Air (Prevention & Control of Pollution) Act, 1981
 - Hazardous Wastes (Management, Handling and Trans boundary Movement) Rules, 2008.

3) Economic/Commercial Laws & Rules:

- The Competition Act, 2002
- The Indian Contract Act, 1872
- The Sale of Goods Act, 1930
- The Forward Contracts (Regulation) Act, 1952
- The Indian Stamp Act, 1899

I have also examined compliances with the applicable clauses of Secretarial Standards issued by the Institute of Company Secretaries of India on the Board and General Meeting i.e. SS-1 and SS-2.

During the period under review, the Company has complied with the provisions of the Acts, Rules, Regulations, Guidelines, Standards, etc. mentioned above as may be applicable during the year under review.

Certain non material findings made during the course of the audit relating to the provisions of the Companies Act, Secretarial Standards, Labour Laws and SEBI (LODR) Regulations which were addressed suitably by the Management.

Further, I report that with regard to financial and taxation matters, I have relied on the Audit Report and the Internal Audit Report provided by the Statutory/Internal Auditors.

I further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors which took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all Directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

Majority decision is carried through while the dissenting members' views are captured and recorded as part of the minutes as per the practice followed. However, during the period under report, there was no such case instance.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

I further report that I could not physically verify few documents/registers/returns due to Lockdown situation in relation to outbreak of Pandemic Covid-19 and I have relied up on the soft copies/information shared with me.

Meeting of Independent Directors:

The Independent Directors of the Company had met once during the financial year on 03.02.2021 at the Registered Office of the Company to review the performance of non- Independent Directors and the Board as a whole, review the performance of the Chairperson of the Company and had accessed the quality, quantity and timeliness of flow of information between the Company Management and the Board.

Annual Report 2020-21

The Company has issued formal letters of appointment to the Independent Directors and the terms and conditions of appointment have been disclosed on the website of the Company. Also, the evaluation criteria for performance evaluation of Independent Directors wherein their preparation, deliberations, effective participation, skills and knowledge to discharge their duties as Independent Director, etc. are rated by all the Directors (excluding the Director being evaluated).

The Company also during the financial year, conducted Familiarization programme for Independent Directors of the Company and the details of such familiarization programmes are disseminated on the website of the Company at (<http://www.mro-tek.com/pdf/FamiliarizationProgrammeFY-2020-21.pdf>,).

Declaration by the Independent Directors:

Independent Directors play a key role in the decision-making process of the Board. They are committed to act in what they believe are in the best interests of the Company and oversee the performance of the Management periodically.

The Company and its Board benefit immensely from the in-depth knowledge, experience and expertise of its Independent Directors in achieving its desired level of business performance and good corporate governance.

None of the Independent Directors are Promoters of the Company or its Holding, Subsidiary or Associate Company nor are they related to each other. None of the Independent Directors are related to Promoters of the Company or others referred to above. The Independent Directors, apart from receiving the sitting fees, had no material pecuniary relationship with the Company/Associates/Promoters/Directors during the two immediately preceding financial years/the current financial year.

They are independent of Management and free from any business or pecuniary relationship or transaction with the Company or Associates or Directors or such other relationships which could materially interfere with the exercise of their independent judgement.

The Independent Directors have given a declaration to the Company confirming adherence to the Code of Conduct/criteria of independence, directorship etc. pursuant to the Regulations 25 and 26 of SEBI (LODR) Regulations, 2015 and provisions of Section 149(6) of the Companies Act, 2013 read with Schedule IV of the said Act.

Code of Conduct:

The Company has framed and adopted Code of Conduct for its Directors and senior Management Personnel, duly approved by the Board. During the financial year under review, all the Directors and Senior Management Personnel have affirmed compliance with the provisions of the said Code. A declaration from the Managing Director/CEO of the Company in terms of Regulation 34(3) read with Schedule V of SEBI (LODR) Regulations, 2015, as amended from time to time is placed as an annexure to the Board's Report. The above annual affirmations were placed before the Board for Information.

In terms of the Code of Conduct of Independent Directors pursuant to Schedule IV of the Companies Act, 2013, the Board has adopted the said Code and all the Independent Directors have affirmed that they abide by the said Code and disseminated on the website of the Company at (http://www.mro-tek.com/pdf/Code_of_Conduct%20MRO-TEK.pdf).

Risk Management:

Periodic assessments to identify the risk areas are carried out and Management is briefed on the risks in advance to enable the Company to control risk through a properly defined plan. The risks are classified as financial risks, operational risks and market risks. The risks are taken into account while preparing the annual business plan for the year. The Board is also periodically informed of the business risks and the actions taken to manage them. The Company has formulated a Policy for Risk Management with the following objectives:

- Provide an overview of the principles of Risk Management
- Explain approach adopted by the Company for Risk Management
- Define the organizational structure for effective Risk Management
- Develop a “risk” culture that encourages all employees to identify risks and associated opportunities and to respond to them with effective actions.
- Identify, assess and manage existing and new risks in a planned and coordinated manner with minimum disruption and cost, to protect and preserve Company’s human, physical and financial assets. The Policy is displayed on the website of the Company at www.mro-tek.com.

Related Party Transactions:

The Company has a Policy in place on the Related Party Transactions. The Policy defines clearly the transactions which require approval from Audit Committee, the Board of Directors and Members at the Annual General Meeting, provision for prior approval, periodical review, omnibus approval, transactions in the ordinary course of business or otherwise, transactions within arm’s length basis or otherwise, materiality of the transactions as defined under Regulation 23 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended from time to time), as applicable and threshold limits as defined and in conformity with the provisions of the Companies Act, 2013, the related rules and the requirements under said Regulations.

The Company has been entering into contracts and arrangements with the Promoters in the ordinary course of business.

As on 31st March, 2021, there are no outstanding related party transactions of the Company with Promoters.

The disclosure in compliance with the Accounting Standards on ‘Related Party Disclosures’ as required under Regulation 34(3) read with Schedule V of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, are disclosed by the Company in the notes forming part of the Financial Statements (Note no. II (h) of the Annual Report) and the particulars of such contracts/ arrangements are provided as an annexure to the Board’s Report.

The Company’s Related Party Transactions Policy is placed on the website of the Company at http://www.mro-tek.com/pdf/20_5_15_RPT_Policy.pdf.

Details of Non-Compliance, if any:

During the financial year, there was no instance of non-compliance under the provisions of the Companies Act, 2013 and other applicable laws.

Details of establishment of Vigil Mechanism/ Whistle Blower Policy:

The Company has established a Whistle Blower Policy/ Vigil Mechanism for the Directors, Employees and other Stakeholders to enable them to report concerns about unethical behavior, actual or suspected fraud or violation of the Company’s Code of Conduct. Under this mechanism, the improper practice, if any, in the Company, can be directly reported to the Audit Committee. A communication in that regard has been sent to all the employees of the Company and reiterated during the Branch Managers’ Conference, Training Programs and by Circulars. The Company affirms that the mechanism provides adequate safeguards against victimization of Director(s)/employee(s) who use the mechanism, and provide for direct access to the Chairman of the Audit Committee and also affirms that no personnel have been denied access to the Audit Committee.

Annual Report 2020-21

Independent Auditor's Report To the Members of MRO-TEK Realty Limited (formerly known as "MRO-TEK Limited")

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of MRO-TEK Realty Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and notes to the financial statement including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, the loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities

for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of Matters

We draw your attention to Note 45 to the financial statements results which explains the uncertainties and the management's assessment of the financial impact due to the lock-downs and other restrictions and conditions related to the COVID-19 pandemic situation, for which a definitive assessment of the impact in the subsequent period is highly dependent upon circumstances as they evolve.

Our opinion is not modified in respect of above matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

	<p>We draw attention to Note 44 of the financial statements regarding preparation of the financial results on going concern basis. The Company's networth as on 31st March, 2021 has been eroded due to continuous losses. The Company has made detailed analysis about its business vis a vis "Going concern" assumption. The Company has taken various initiatives in relation to saving cost, optimize revenue management opportunities and diversified into other streams / areas like EMS & Solution business which is expected to result in improved operating performance. The company has bagged new sizeable orders with better margins from new streams. The property development at Hebbal was completed and Company was intimated by MessersUmiya Builders and Developers ("Developer") on 25th June 2021 that they are in receipt of occupation certificate ("OC") from the concerned authorities for the "UmiyaVelociti" ("developed building") situated at Hebbal. The Company had signed and registered the lease deed with Trent Limited belonging to TATA Group, as its first tenant, to lease the portion of space belonging to MRO-TEK Realty Limited (Company). Further the regular income in the form of rental income from Trent Limited, will be recognized in the coming year. Accordingly, the financial statements continue to be prepared on a going concern basis, which contemplates realization of assets and settlement of liabilities in the normal course of business and the reasons stated therein though the net worth of the Company is eroded due to continuous losses. Considering the above, we have identified the assessment of going concern assumption as a key audit matter considering that the Company has net current liabilities.</p>	<p><u>Audit Procedures</u> Our audit procedures included the following:</p> <ul style="list-style-type: none"> • Evaluation of design and implementation of the control relating to managements assessment of going concern. • Tested the controls relating to management s assessment impairment of going concern. • Evaluation of the appropriateness of identification of material uncertainties. • Analysed and discussed cash flow, profits and other relevant forecasts with management. • We have obtained an understanding of the process of management assessment of going concern and also assessed the same. • Assessed the sensitivities and stress testing on the future cash flows that management has considered for the going concern assessment. • Evaluated disclosures in the financial statements for the Material Uncertainty Related to Going Concern and the related compliance with the requirements of the Standards on Auditing and the applicable financial reporting standards. • We also draw attention to Note 44 where it is informed that the property development at Hebbal is completed and the Company expects regular lease rental /other income at market norms.

Sr. No.	Key Audit Matter	Auditor's Response
2	Inventory Management	
	<p>We refer to financial statements' note no 2.11 accounting policy and note no 9 disclosure on inventories. At the balance sheet date, the value of inventory is to Rs 12.90 crores representing 19.67% of total assets. Inventories were considered as key audit matter due to size of the balance and because inventory valuation involves management judgement. According to financial statements' inventories are valued at lower of cost or net realisable value.</p>	<p><u>Audit Procedures</u> Our audit approach consisted testing of the design and operating effectiveness of the internal controls as follows:</p> <ul style="list-style-type: none"> • Accessing the compliance of Company's accounting policy over inventory with applicable standards. • Evaluated the design of internal controls relating to assessing the inventory management and valuation process and practices. • Selected samples and tested the operating effectiveness of the key control. • Assessing the analyses and assessment made by management with respect to slow and obsolete stock. • We have assessed the adequacy of the Company's disclosures related to inventories.
3	Trade Receivables	
	<p>Trade Receivables are significant to the Company's financial statements. The Collectability of trade receivables is a key element of the company's working capital management, which is managed on an ongoing basis by its management. Due to the nature of the Business and the requirements of customers, various contract terms are in place, there is a risk that the carrying values may not be reflective of their recoverable amounts as at the reporting date, which would require an impairment provision. Where there are indicators of impairment, the company undertakes assessment of the recoverability of the amounts. Given the magnitude and inherent uncertainty involved in the judgement, involved in estimating impairment assessment of trade receivables, we have identified this as a key audit matter.</p>	<p><u>Audit Procedures</u> Our audit procedures are follows:</p> <ul style="list-style-type: none"> • The assessment of trade receivables, which included substantive testing of revenue transactions, obtaining trade receivable external confirmations and testing the subsequent payments received. • Assessing the impact of impairment on trade receivables requires judgement and we evaluated management's assumptions in determining the provision for impairment of trade receivables, by analysing the ageing of receivables, assessing significant overdue individual trade receivables and specific local risks, combined with the legal documentations, where applicable. • We tested the timing of revenue and trade receivables recognition based on the terms agreed with the customers. • We also reviewed, on a sample basis, terms of the contract with the customers, invoices raised, etc., as a part of our audit procedures.

Information Other than the Financial Statements and Auditor’s Report Thereon

The Company’s Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board’s Report including Annexures to Board’s Report, Business Responsibility Report, Corporate Governance and Shareholder’s Information, but does not include the financial statements and our auditor’s report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management’s Responsibility for the Financial Statements

The Company’s Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and

maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company’s financial reporting process.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a

Annual Report 2020-21

basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of MRO-TEK Realty Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of MRO-TEK REALTY LIMITED (“the Company”) as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date. Management’s Responsibility for Internal Financial Controls The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the

maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note No. 2 Significant accounting policies

2.1 Statement of compliance

These financial statements (the 'financial statements') have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter. Except for the changes below, the Company has consistently applied accounting policies to all periods. The Company has adopted Ind AS 115 'Revenue from Contracts with Customers' with the date of initial application being April 1, 2018. Ind AS 115 establishes a comprehensive framework on revenue recognition. Ind AS 115 replaces Ind AS 18 'Revenue' and Ind AS 11 'Construction Contracts'. The application of Ind AS 115 did not have material impact on the financial statements. As a result, the comparative information has not been restated.

2.2 Basis of measurement

The standalone financial statements have been prepared on the historical cost basis except for: - certain financial assets and liabilities (including derivative instruments), plan assets of the defined benefit plan and equity settled share based payments that are measured at fair values at the end of each reporting period.

2.3 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

2.3.1 Sale of goods

Revenue is recognised under IND AS 115, upon transfer of control of promised goods to customer in an amount that reflect the consideration which the company expects to receive the exchange for those goods. Revenue from sale of goods is recognised at the point in time when control is transferred to the customer which is usually on dispatch/delivery. Revenue is based on transaction price, which is the consideration, adjusted for volume discounts, rebates, scheme allowances, price concessions, incentives & returns, if any as specified in the contractual terms with the customer. Revenue excludes taxes collected from the customers on behalf of the govt.

2.3.2 Rendering of services

Revenue from rendering services is recognised under IND AS

115, based on the performance obligations and the ascribed transaction price. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied: the amount of revenue can be measured reliably based on the contract with customer; it is probable that the performance obligation has been delivered to the company; the costs incurred or to be incurred in respect of the transaction can be measured reliably. Stage of completion is determined by the proportion of actual costs incurred to-date, to the estimated total costs of the transaction.

2.3.3 Recognition of revenue from sale of land and development rights

Revenue from sale of land and development rights is recognized upon transfer of control on the real estate/ property, as per the terms of the contracts entered into with buyers, which generally coincides with the firming of the sales contracts/ agreements. Revenue from sale of land and development rights is only recognized when transfer of legal title to the buyer is not a condition precedent for transfer control on the property to the buyer.

2.3.4 Royalties

Share of profit and royalty income under manufacturing and supply agreements with customers are accrued based on confirmation received from customers.

2.3.5 Dividend and interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably). Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.3.6 Foreign currencies transactions and translation

The functional currency of the Company is the Indian Rupee (₹). Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency closing rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in Statement of Profit and Loss except to the extent of exchange differences which are regarded as an adjustment to interest costs on foreign currency borrowings that are directly attributable to the acquisition or construction of qualifying assets, are capitalized as cost of assets. Non-monetary assets and liabilities that are measured in terms of historical cost in foreign currencies are not retranslated. Income and expense items in foreign currency are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange rates at the dates of the transactions are used.

Annual Report 2020-21

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31st March 2021

2.4 Employee benefits

2.4.1 Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions. For defined benefit retirement plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to statement of profit and loss. Past service cost is recognised in statement of profit and loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows: service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements); net interest expense or income; and remeasurement. The Company presents the first two components of defined benefit costs in statement of profit and loss in the line item 'Employee benefit expense'. Curtailment gains and losses are accounted for as past service costs. The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans. A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

2.4.2 Defined contribution plan

Contribution to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits.

2.4.3 Compensated absences

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised at an actuarially determined liability at the present value of the defined benefit obligation at the Balance sheet date. In respect of compensated absences expected to occur within twelve months after the end of the period in which the employee renders the related services, liability for short-term employee benefits is measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

2.4.4 Long term Incentive Plans

Under the Plan, certain employees are eligible for retention and performance linked payouts. These payouts are accrued as and when services are rendered and/ or when the specific performance criteria are met.

2.5 Share-based payment arrangements

2.5.1 Share-based payment transactions of the Company

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in statement of profit and loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

2.5.2 Share-based payment transactions of the acquiree in a business combination

When the share-based payment awards held by the employees of an acquiree (acquiree awards) are replaced by the Company's share-based payment awards (replacement awards), both the acquiree awards and the replacement awards are measured in accordance with Ind AS 102 ("market-based measure") at the acquisition date. The portion of the replacement awards that is included in measuring the consideration transferred in a business combination equals the market-based measure of the acquiree awards multiplied by the ratio of the portion of the vesting period completed to the greater of the total vesting period or the original vesting period of the acquiree award. The excess of the market-based measure of the replacement awards over the market based measure of the acquiree awards included in measuring the consideration transferred is recognised as remuneration cost for post-combination service.

However, when the acquiree awards expire as a consequence of a business combination and the Company replaces those awards when it does not have an obligation to do so, the replacement awards are measured at their market-based measure in accordance with Ind AS 102. All of the market-based measure of the replacement awards is recognised as remuneration cost for post-combination service.

2.6 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax

2.6.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the standalone statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.6.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the standalone

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31st March 2021

financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets include Minimum Alternate Tax (MAT) paid in accordance with the tax laws in India, which is likely to give future economic benefits in the form of availability of set-off against future tax liability. Accordingly, MAT is recognised as deferred tax asset in the Balance sheet when the asset can be measured reliably and it is probable that the future economic benefit associated with the asset will be realised.

2.6.3 Current and deferred tax for the year

Current and deferred tax are recognised in statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

2.7 Property, plant and equipment

Property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property

assets, commences when the assets are ready for their intended use. Freehold land is not depreciated.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

Depreciation on tangible fixed assets has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed to be different and are as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in statement of profit and loss.

When an item of property, plant and equipment is acquired in exchange for a non-monetary asset or assets, or a combination of monetary and nonmonetary assets, the cost of that item is measured at fair value (even if the entity cannot immediately derecognise the asset given up) unless the exchange transaction lacks commercial substance or the fair value of neither the asset received nor the asset given up is reliably measurable. If the acquired item is not measured at fair value, its cost is measured at the carrying amount of the asset given up.

2.8 Investment Property

(a) Recognition and Measurement

Property held to earn rentals or for capital appreciation or both rather than for use in the production or supply of goods or services or for administrative purposes; or sale in the ordinary course of business is recognised as Investment Property. Land held for a currently undetermined future use is also recognised as Investment Property.

An investment property is measured initially at its cost. The cost of an investment property comprises its purchase price and any directly attributable expenditure. After initial recognition, the Company carries the investment property at the cost.

(b) Fair Value

Fair value of investment property is based on a valuation by an independent valuer who holds a recognised and relevant

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31st March 2021

professional qualification and has recent experience in the location and category of the investment property being valued.

(c) Gain or loss on Disposal

Any gain or loss on disposal of an Investment Property is recognised in the Standalone Statement of Profit and Loss.

2.9 Intangible assets

2.9.1 Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

2.9.2 Internally-generated intangible assets - research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in statement of profit and loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately

2.9.3 Intangible assets acquired in a business combination

Intangible assets acquired in a business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same

basis as intangible assets that are acquired separately.

2.9.4 Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in statement of profit and loss when the asset is derecognised.

2.10 Impairment of assets

2.10.1 Impairment of financial assets:

The Company assesses at each date of balance sheet, whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the twelve-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly, since initial recognition.

2.10.2 Impairment of investment in subsidiaries, associates and joint ventures

The Company reviews its carrying value of investments in subsidiaries at cost, annually, or more frequently when there is an indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

2.10.3 Impairment of non-financial assets other than goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash generating unit)

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31st March 2021

is estimated to be less than its carrying amount, the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in statement of profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in statement of profit and loss.

2.11 Inventories

Inventories are valued at the lower of cost and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of sale, including octroi and other levies, transit insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, . Cost is determined as follows:

Raw materials, packing materials and consumables: First In First Out

Work-in progress: at material cost and an appropriate share of production overheads

Finished goods: material cost and an appropriate share of production overheads wherever applicable

Stock-in trade: First In First Out

2.12 Segment Reporting

Operating Segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by chief operating decision making body, in deciding how to allocate resources and assessing performance. The reporting of segment information is the same as provided to the management for the purpose of the performance assessment and resource allocation to the segments.

Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue is accounted on the basis of transactions which are primarily determined based on market/ fair value factors. Revenue, expenses, assets and liabilities which relate to the company as a whole and are not allocable to segments on a reasonable basis have been included under " Unallocated revenue/ expenses/assets/ liabilities.

2.13 Cash and Cash Equivalents

Cash and cash equivalents include cash, cheques on hand, cash at bank and short term deposits with banks having original maturity of three months or less, which are subject to insignificant risk of changes in value.

2.14 Statement of Cash Flows

Cash flows are reported using the indirect method whereby profit/ (loss) is adjusted for the effects of transactions of non- cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flow from operating, investing and financing activities of the company are segmented based

on the available information.

2.15 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material). When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Product warranty expenses

The estimated liability for product warranties is recorded when products are sold. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding probable future incidences based on actions on product failures. The timing of outflows will vary as and when warranty claim will arise.

2.16 Contingent liabilities

Contingent liabilities are disclosed in notes when there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

2.17 Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

2.18 Financial instruments

2.18.1 Investment in subsidiaries, associates and joint ventures
The Company has accounted for its investments in subsidiaries, associates and joint ventures at cost less impairment.

2.18.2 Other financial assets and financial liabilities

Other financial assets and financial liabilities are recognised when Company becomes a party to the contractual provisions of the instruments.

Initial recognition and measurement: Other financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31st March 2021

liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in statement of profit and loss.

Subsequent measurement:

Financial assets at amortised cost Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and contractual terms of financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income Financial assets are measured at fair value through other comprehensive income if these financial assets are held within business whose objective is achieved by both collecting contractual cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding and selling financial assets.

Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it measured at amortised cost or fair value through other comprehensive income on initial recognition. The transaction cost directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in the statement of profit and loss.

Financial liabilities Financial liabilities are measured at amortised cost using effective interest rate method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

2.18.3 Equity instruments

An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments recognised by the Company are recognised at the proceeds received net off direct issue cost.

2.18.4 Derivative financial instruments and hedge accounting

The Company uses various derivative financial instruments such as interest rate swaps, currency swaps and forward contracts to mitigate the risk of changes in interest rates and foreign exchange rates. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are also subsequently measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to the Statement of Profit and Loss, except for the effective portion of cash flow hedges which is recognised in Other Comprehensive Income and later to the Statement of Profit and Loss when the hedged item affects profit or loss or treated as basis adjustment if a hedged forecast transaction subsequently results in the recognition of a non-financial assets or non-financial liability

Hedges that meet the criteria for hedge accounting are accounted for as follows:

a) Cash flow hedge

The Company designates derivative contracts or non derivative financial assets / liabilities as hedging instruments to mitigate the risk of movement in interest rates and foreign exchange rates for foreign exchange exposure on highly probable future cash flows attributable to a recognised asset or liability or forecast cash transactions. When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in the cash flow hedging reserve being part of other comprehensive income. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in the Statement of Profit and Loss. If the hedging relationship no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the underlying transaction occurs. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the Statement of Profit and Loss upon the occurrence of the underlying transaction. If the forecasted transaction is no longer expected to occur, then the amount accumulated in cash flow hedging reserve is reclassified in the Statement of Profit and Loss.

b) Fair value hedge

The Company designates derivative contracts or non derivative financial assets / liabilities as hedging instruments to mitigate the risk of change in fair value of hedged item due to movement in interest rates, foreign exchange rates and commodity prices. Changes in the fair value of hedging instruments and hedged items that are designated and qualify as fair value hedges are recorded in the Statement of Profit and Loss. If the hedging relationship no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item for which the effective interest method is used is amortised to Statement of Profit and Loss over the period of maturity.

2.19 Exceptional items

An item of income or expense which by its size, type or incidence requires disclosure in order to improve an understanding of the performance of the company is treated as an exceptional item and the same is disclosed in the notes to accounts.

2.20 Tax Input credit

Tax input credit is accounted for in the books in the period in which the underlying service received is accounted and when there is no uncertainty in availing / utilising the credits.

2.21 Operating Cycle

As mentioned in para 1 above under 'Corporate information', the Company is into development and manufacture of Electronic products. Based on the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as less than 1 year for manufacturing of products. The above basis is used for

NOTES TO THE FINANCIAL STATEMENTS

for the year ended 31st March 2021

classifying the assets and liabilities into current and non-current as the case may be.

2.22 Key sources of estimation uncertainty

In the application of the Company's accounting policies, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

2.22.1 Impairment of non-financial assets

Determining whether the asset is impaired requires to assess the recoverable amount of the asset or Cash Generating Unit (CGU) which is compared to the carrying amount of the asset or CGU, as applicable. Recoverable amount is the higher of fair value less costs of disposal and value in use. Where the carrying amount of an asset or CGU exceeds the recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

2.22.2 Impairment of financial assets

The impairment provisions for financial assets are based on assumptions about risk of default and expected cash loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

2.22.3 Useful lives of property, plant and equipment

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This assessment may result in change in the depreciation expense in future periods.

Assets.	Estimated Useful life
Building	30 Years Factory 60 Years Office
Plant & Machinery	15 Years
Computers, Software and Networking	3 Years
Servers and Networks.	6 years
Furniture & Fixtures, Test Equipments and Electrical Installations	10 Years
Office Equipments	5 Years
Vehicles	8 Years

2.22.4 Employee Benefits

The cost of defined benefit plans are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

2.22.5 Litigations

As explained in note 36, the Company is a party to certain commercial disputes and has also received notification of claims for significant amounts. There are number of factors that may affect the ultimate outcome in respect of this matter and accordingly, it is difficult to assess the impact of these disputes with accuracy.

policies and processes for measuring and managing risk, and the Company's management of capital. The company's risk management policies are established to identify and analyse the risk faced by the company, to set appropriate risk limits and controls and to monitor risk and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and group's activities. The company through its training and management standards and procedures aims to maintain a disciplined and constructive control environment in which all employee understand their roles and obligations.

A. Credit Risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from company's receivables from customers and loans. The Company is exposed to credit risk as a result of the risk of counterparties defaulting on their obligations. The Company's exposure to credit risk primarily relates to investments, trade receivable and cash and cash equivalents. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assess the credit quality of the counterparties taking into account their financial condition, past experience and other factors.

The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by credit rating agencies.

The companies Trade and other receivables are actively monitored to review credit worthiness of the customers to whom credit terms are granted and also avoid significant concentrations of credit risks.

Given below is ageing of accounts receivables spread by period of 6 months:

	31-Mar-21	31-Mar-20
Outstanding for more than 6 months	1,17,21,041	1,65,95,727
	1,17,21,041	1,65,95,727

The company continuously monitors defaults of customers and other counterparties, identified either individually or by the group and incorporates this information into its credit risk controls.

Trade receivables consists of large number of customers spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable and where appropriate, credit guarantee insurance cover is purchased.

There is no receivable from single external customer outstanding more than 10% of companies total revenue for the year ended 31 March, 2021

B. Liquidity risk

Liquidity risk is the risk that the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. The company has an appropriate liquidity Risk management framework for the management of short, medium and long term funding and liquidity management requirements. The company manages liquidity risk by maintaining adequate cash reserves, banking facilities, and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The company's treasury department is responsible for managing the short term and long term liquidity requirements of the company, short term liquidity situation is reviewed daily by treasury. Long Term liquidity position is reviewed on a regular basis by the Board of Directors and appropriate decisions are taken according to the situation.

Typically the company ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations, this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

C. Market risk

Market risk is the risk that changes in the market prices, such as foreign exchange rates, interest rates and equity prices will affect the company's income or the value of its holdings of the financial instruments. The objective of market risk management is to manage and control market risk exposures with acceptable parameters, while optimising the return. The company is exposed to interest rate risk arises mainly from debt. The company is exposed to interest rate risk because the fair value of fixed rate borrowings and the cash flows associated with floating rate borrowings will fluctuate with changes in interest rates. The company is also exposed to foreign currency risk on certain transactions that are denominated in a currency other than the respective entity's functional currency hence exposures to exchange rate fluctuations arise. The risk is that functional currency value of cash flows will vary as a result of movements in exchange rates.

i) Foreign currency risk exposure

The year end foreign currency exposures that have not been hedged by a derivative instrument or otherwise are given below:

Foreign Currency	As at 31 march, 2021		As at 31 march, 2020	
	INR	FC	INR	FC

ii) foreign currency sensitivity analysis

The company is mainly exposed to currency fluctuation of USD and EUR.

The following table details company's sensitivity to a 10% increase and decrease in the INR against the relevant foreign currencies. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their transition at the period end for 10% change in foreign currency rates. A positive numbers below indicates an increase in profit or equity where the INR strengthens 10% against the relevant currency. For a 10% weakening of the INR against the relevant currency, there would be a comparable impact on the profit or equity, and the balance below would be negative.

Impact in the statement of profit and loss and total		
	31 March, 2021	31 March, 2020
Currency of USA (\$)	(3,91,843)	(63,90,193)
Currency of JPY	-	(2,382)
Currency of GBP	(2,131)	-
Currency of EUR	(6,56,331)	(6,10,568)

In management opinion, the sensitivity analysis is unrepresentative of the foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

Note on Going Concern Assumption

The Company's net worth as on 31st March, 2021 has been eroded due to continuous losses. The Company has made detailed analysis about its business vis a vis "Going concern" assumption. The Company has taken various initiatives in relation to saving cost, optimize revenue management opportunities and diversified into other streams / areas like EMS & Solution business which is expected to result in improved operating performance. The company has bagged new sizeable orders with better margins from new streams. The property development at Hebbal was completed and Company was intimated by Messers Umiya Builders and Developers ("Developer") on 25th June 2021 that they are in receipt of occupation certificate ("OC") from the concerned authorities for the "Umiya Velociti" ("developed building") situated at Hebbal. The Company had signed and registered the lease deed with Trent Limited belonging to TATA Group, as its first tenant, to lease the portion of space belonging to MRO-TEK Realty Limited (Company). Further the regular income in the form of rental income from Trent Limited, will be recognized in the coming year. The net worth of the company will be positive in the coming year. Accordingly, the financial statements continue to be prepared on a going concern basis, which contemplates realization of assets and settlement of liabilities in the normal course of business.

Note 45

Covid - 19 Effect on company

Due to the global crisis of Covid-19 including India, Business have been effected very adversely. Execution of orders planned in this quarter has been effected, Supply Chains have been disrupted and the lockdown has adversely effected the business. The Company is largely dependent on global for import of raw materials and components for manufacture of electronic products and it is the case with all electronic manufacturers in general. As you are aware, the COVID-19 has impacted the supply of materials at the Global level and has caused shortage of materials for manufacturing products in our company as well. Due to scary situation, many skilled labourers moved out of state or city to their local residence to be on safer side and this has impacted our capability as well.
